# Drive Solutions for Agriculture

## Torque-Hub® planetary drives, specialty gearing and custom gear assembly solutions

As the provider of choice for gears, Torque-Hub® planetary drives and custom gearboxes, Oerlikon Fairfield works with other leading agricultural equipment manufacturers to create unique, differentiated solutions for a wide variety of applications.

Our experience with agricultural equipment includes:

- ✓ Feed mixers
- ✓ Hay balers
- ✓ Spray tractors
- ✓ Fruit, nut and vegetable harvesters
- ✓ Wind rowers
- ✓ Crop sweepers
- ✓ Brush shredders
- ✓ and more

## Oerlikon Fairfield understands your application

For over half of a century, we have been building track and wheel drives, conveyor and auger drives and custom gear boxes for agricultural equipment. Whether you need to pick it, process it or propel it, Fairfield will work with you to develop a custom solution.

Renowned for our engineering support, Fairfield can solve your most difficult challenges while building competitive advantages into your products.

Oerlikon Fairfield has more than 50 engineers on staff conducting:

- Finite Element Analysis
- CAD/Solids Modeling

- Extensive metallurgical testing
- Product-performance testing in lab and field environments

If you are seeking more reliability, greater fuel economy, better traction control, higher speeds or optimized power and efficiency, look to Oerlikon Fairfield for your solutions.

**No matter what kind of tracks you make... we have the drive solution.**
